### Notes

All of the turrets have the same size pivot. This means that they are interchangeable across the whole range, so combinations are available that we haven't listed.

If you need a better-armed IFV than our standard offering, use the light tank turret on a medium or heavy chassis.

### Separate Turrets

Turrets are available separately, to put onto existing models or field defences, at the following prices:

Light IFV or command turret £0.15 each  
Other light turrets £0.45 each  
Medium IFV or command turret £0.25 each  
Other medium turrets £0.65 each  
Heavy IFV or command turret £0.35 each  
Other heavy turrets £1.25 each
